

A MANIFESTO FOR ACCOUNTABILITY, SUSTAINABLE DEVELOPMENT AND PEOPLE FIRST AGENDA

Candidate: Dr. Freeman Ezeiruaku

Constituency: Nnewi North/Nnewi South/Ekwusigo Federal Constituency of Anambra State
party: People Democratic Party (PDP)

Motto: *Power to the People.*

Executive Summary: A New Dawn for Our Constituency

Dear Constituents,

Nigeria stands at a pivotal crossroads, and our constituency deserves a vibrant, courageous, and empathetic voice in the House of Representatives. For too long, the gap between the government and the governed has widened. I am stepping forward to bridge that gap.

My vision is built on a foundation of **accountability, economic empowerment, and accessible public services**. This manifesto is not just a list of promises; it is a social contract. Together, we can transform our community into a model of security, innovation, and shared prosperity.

The Four Pillars of My Legislative Agenda

1. Robust Legislative Advocacy & Policy Reform

A representative's primary job is to make laws that work for the people. I will focus my legislative energy on sponsor-backed bills that directly impact our daily lives:

- **Decentralized Security:** Advocate for policing reforms and localized security frameworks to protect our farmers, traders, and families.
- **Youth & Digital Economy:** Push for legislation that provides tax incentives for tech hubs, SMEs, and businesses that hire a high percentage of local youths.
- **Constituency Oversight:** Ensure that federal projects allocated to our constituency are tracked transparently and executed to the highest standard.

2. Economic Empowerment & Job Creation

True independence begins with economic viability. I will launch the **Constituency Prosperity Fund** to drive local growth:

- **SME Grants & Micro-Loans:** Provide interest-free loans and grants specifically targeted at women traders and youth entrepreneurs.

- **Vocational & Tech Academies:** Establish modern skill acquisition centers focused on high-demand skills like solar panel installation, coding, mechanized farming, and fashion design.
- **Agricultural Support:** Provide subsidized fertilizers, high-yield seeds, and modern storage facilities to our farmers to reduce post-harvest losses.

3. Education and Healthcare Transformation

No society can thrive without a healthy, educated population. I will reinvest constituency project funds directly into these critical sectors:

- **School Rehabilitation:** Upgrade dilapidated classrooms and provide modern learning materials and ICT labs in our public schools.
- **Scholarship Schemes:** Establish a merit- and need-based scholarship board to ensure no brilliant child from our constituency drops out of higher education.
- **Primary Healthcare (PHC) Upgrades:** Partner with private organizations to equip our local health centers with essential drugs, reliable solar power, and clean water.

4. Open Governance and Inclusivity

I believe that a representative must be accessible, not an elite figure locked away in Abuja.

- **Town Hall Meetings:** Hold quarterly, transparent town hall meetings to hear your concerns and brief you on legislative activities.
- **Constituency Office:** Maintain an active, functional local office where any citizen can walk in, register a grievance, or seek assistance.

Why I Am Running: The Core Values

Value	My Commitment to You
Integrity	Every Naira allocated for constituency development will be fully accounted for.
Inclusivity	No community, religion, or tribe within our constituency will be marginalized.
Accessibility	You are electing a servant-leader, not a master. My doors will always remain open.

A Pledge to the People

"I pledge to represent you with boldness and dignity. I will not be a silent member of the House. Your pains will be my pains, your aspirations will be my drive, and your voice will be heard loudly on the floor of the National Assembly."

Join the Movement

This election is not about me; it is about **us**. It is about taking back our future from the politics of empty promises. Let us choose progress over stagnation, competence over godfatherism, and unity over division.

Vote for Accountability.

Vote for Progress.

Vote for Dr. Freeman Ezeiruaku

God bless Nnewi North/Nnewi South/Ekwusigo Federal Constituency

and God bless the Federal Republic of Nigeria.
